S.A.E. U 98
HIGH IMPACT POLYCARBONATE LENS

This low profile wedge design L.E.D. lamp has become a 'best seller' in our family of L.E.D. STOP LAMPS.

Lamp features include:

- Ultra slim lamp allowing creative design locations utilizing minimal cap space.
- Super bright L.E.D.s extend lamp life and reduce heat, while meeting S.A.E. ratings.
- One piece, high impact plastic polycarbonate lens assembly locks out moisture and resists discoloration.
- Bottom tape mounting assures that the lamp "stays put".
