If you need high quality AUTOMOTIVE ROCKER SWITCHES with O.E.M.-styled mounting bezels, look at American Technology Components.

The AT610 SERIES SWITCH PANELS will meet or exceed your requirements. Whether it's for power sunroofs, power seats and sofas, power windows, door locks or lumbar. The 610 SERIES will fit the bill for these applications and more.

With a 40amp DC rating, these switches are ready for your most demanding requirements. And the available MATING CONNECTOR completes the O.E.M. installation.
